PURE GENIUS.™

**Burn Fat.  
Burn Calories.  
Burn Your  
Big Clothes.**

### **Thermogen II™**

The problem with most supplements isn't what goes into them—it's what you get out of them. Limited absorption is the Achilles' heel of many nutritional supplements—whether simple vitamins or complex thermogenics. For many nutrients, over 90% of what you take in is destroyed in the stomach before it can reach the small intestine to be absorbed into the bloodstream.

That's why we've invested extensive research into formulating a proprietary, pH-controlled delivery system for Sci Fit Thermogen II. Thermogen II binds our active ingredients to this unique sustained-release delivery system, ensuring maximum absorption of the active thermogenic ingredients.

Thermogen II enhances metabolic function and suppresses appetite. So while you're burning all those extra calories, you can burn those big clothes, too. With Thermogen II, you're well on your way to becoming the lean, new you.
